## Welcome to the Kingdom of Morcia, a land of magic and adventure!

Greetings! I am Danju, Knight of Morcia. We Knights have long protected our peaceful kingdom and displayed our skills in the tournament arena, but now the king has vanished and the evil Vladek has stolen the throne. If we cannot stop him in time, Vladek and his Shadow Knights will rule all of Morcia!

It's up to four brave Knights to find the Heart of the Magical Shield of Ages and save the Kingdom!

**Jayko**

Courageous to the core, our youngest hero's lightning reflexes allow him to strike with deadly accuracy.

**Danju**

A fierce and dedicated knight, his code of honor inspires other Knights to follow this wise and devoted warrior.

**Santis**

Immortal trials await our gentle giant, Santis. Mighty Santis can bear up under the heaviest of burdens.

**Rascus**

While the whole world may judge the simple knight would never let the opportunity pass his friends in danger.

Together, they must stop the evil Vladek from taking over the Kingdom!

**Vladek**

Once a respected tournament champion, the treacherous Vladek now uses darkness to control the throne of Morcia.

How well do you know your Knights? See if you can match each Knight's letter with his shield emblem.

These knights are  
looking for their Team  
in the Middle Ages!

Join Vladek  
in his  
quest for  
power!

Can you  
find them?  
It's not easy!

# KNIGHTS' KINGDOM CHALLENGE

Take it from me, Jayko, there's no better way to show off your knightly skills than in a royal tournament. With your KNIGHTS' KINGDOM CHALLENGE cards, you're all set for a friendly joust. We've even provided an arena for you!

## RULES

- Both players start with the same number of cards. Before playing, arrange your deck in any order you wish. Once the game starts, you can't change the order of your cards.
- Hold your cards with the SHIELD side facing your opponent. It's time for a Joust! Call out the symbol (SWORD, HELMET, SHIELD or HEART OF THE MAGICAL SHIELD) that appears at the top of the picture on the card. The player with the strongest symbol becomes the CHALLENGER; the other player is the DEFENDER. If both players have the same symbol, move those cards to the back of your decks and joust again.

### Joust Symbol Power Rankings:

- |  |                                       |  |
|--|---------------------------------------|--|
|  | SWORD beats HELMET                    |  |
|  | HELMET beats SHIELD                   |  |
|  | SHIELD beats SWORD                    |  |
|  | HEART OF THE MAGICAL SHIELD beats all |  |

- The CHALLENGER places their card down with the SHIELD side facing up and says which SKILL they are using to Challenge: SPEED (Blue Hawk), STRENGTH (Red Bear), AGILITY (Green Monkey) or WISDOM (Purple Wolf).
- the DEFENDER places their card on top of the Challenger's card with the SHIELD side facing DOWN so that the POWER NUMBERS line up on the right side. The player with the highest POWER NUMBER in the Challenger's SKILL will be challenged. If the numbers are the same, then both players return their cards to the back of their decks.
- If you win a challenge, move your winning card to the back of your deck. Should you lose a challenge, you must put your card to the side. It cannot be used again in the current game.
- The game can last a set number of rounds or until one player has no more cards left. The player with the most cards left at the end of the game is the winner of the KNIGHTS' KINGDOM CHALLENGE!

BUILDING A BETTER TOMORROW, ONE BRICK AT A TIME

All over the world, kids are discovering the fun of LEGO® Spinners!

These LEGO fans are going wild for LEGO Spinners!

## Young Inventors Put a New Spin on LEGO Bricks!

Recently, three young inventors wrote the LEGO® company to tell us about a great new game they had created. Using parts from their LEGO collections, James, Martinus and Fabrikant designed a set of spinning tops. The president of the LEGO company, Keld Kirk Kristiansen, was so impressed by their ingenuity and creativity that he wrote a personal letter back to them, telling them how much he liked their LEGO Spinners!

All over the world, young fans have been using their LEGO elements to create amazing tops. James Doran, 11, of New York, even went through the formal process of presenting his ideas for spinning tops to the LEGO Company. Director of Global Inventor Relations held the Toy Fair in NYC this past February.

Not only had James designed and built prototypes of his tops, he had tested them with his friends and rated the various designs based on performance. He even had suggestions for possible TV commercials.

## Design Your Own, One-of-a-Kind LEGO Spinner

You only need a few basic elements to create a simple LEGO Spinner! Of course, you'll want to use your favorite colors and even add more LEGO elements to design a LEGO Spinner that's all your own. That's part of the fun of LEGO Spinners - seeing just how incredible your design can be!

### PARTS LIST

## LEGO Spinner Games

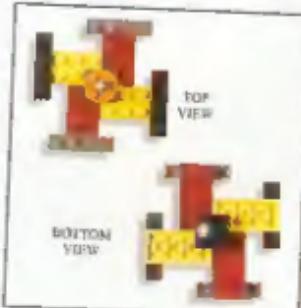

### Spinner Skirmish

- 1) Stack an area out of a book, a toy, or anything with a flat base and round edges.
- 2) Use a rectangular plate to hold a LEGO Spinner inside the area and give it a push.
- 3) Count down to start!
- 4) All contestants should launch their spinners at the same time.
- 5) Use spinners standing or declared Champ!

### Top Time

- 1) Place your LEGO spinner on a flat surface.
- 2) Count down to start!
- 3) Launch your spinner with a swirl of your fingers or a LEGO pull-back motor.
- 4) Use a stopwatch or click with a second hand to see how long your spinner will stay up.
- 5) By modifying your LEGO Spinner design to make a wider base longer.
- 6) See who can set the long-spin record!

## RETURN TO HOGWARTS!

It's a new year at Hogwarts™ and, my, how things have changed! Who are these Fearsome Dementors™ that prowl the grounds? And what do they want from Harry?

## 4757 Hogwarts Castle and Clock Tower

Featuring Hogwarts™ Clock Tower, Gryffindor™ Tower and Trelawney's Classroom.

### TOP TEN REASONS DEMENTORS™ CAN'T BUILD

1. Slimy hands make it hard to grip LEGO® bricks.
2. Minifigures faint when they're annoyed.
3. Frustrated that no one wants to listen and read the LEGO building instructions with them.
4. Have to keep stopping to drain all the fun out of the pieces.
5. Lack of feet make them afraid of falling or stamping on all those little LEGO pieces.
6. Good at taking things apart but bad at putting them together.
7. Dumbfounded yet too often claim to build a life-size Harry Potter sculpture in Hogwarts Castle.
8. Can't understand why there isn't a LEGO set called "Dynamic Dementor Defenders."
9. Worried that their minifigures might make them look friendly.
10. Too busy crying so kiss the Series Black™ minifigure.

### LEGO Mars Rover Repli.

This futuristic LEGO® model of the Mars Rover took a team of LEGO Master-builders more than 600 hours to build. At 1:10 scale or 100 millimeters and containing more than 2000 LEGO® bricks! All of the instruments, cameras, and scientific tools are detailed to provide the greatest accuracy.

The LEGO® Mars Exploration Rover (2001) is a highly detailed miniature replica of Mars Rover Spirit and Opportunity. It's made up of 200 elements and features flip-up solar panels, moveable radio dish and controllable steering. You can use it to recreate the Mars Rover missions of 2004, or to explore the strange, uncharted landscape beneath your feet.

### The Real Rover

During the exploration phase of their mission, Spirit and Opportunity transmitted a wealth of valuable scientific data back to Earth—information that will help ensure the success of future space missions. Each real Rover measures 2.5 meters (8.2 meters wide) and 1.8 meters long and weighs in at 100 kilograms.

### EAST MEET WEST

With only three months left before the Mars rovers land on the Red Planet, the Mars Exploration Rover team is getting ready for the big day. And what better way to celebrate than with a competition for the best Mars rover model ever built? So get creative and let your imagination run wild. Just like we did!

We invite the world's most creative minds to submit their best models of the Mars rovers. And since they're made of LEGO® bricks, they should be fun to build too! Just 100 years have passed since the first man walked on the Moon. Now it's time for us to follow in his footsteps and explore the Red Planet. So get your thinking caps on and start creating. Who knows, you might just be the next Mars rover builder!
